

High Tech Universal Fuse Switches

- Operates safely under normal load, overload and short circuit conditions
- Powerful independent manual operation ensures contacts cannot be closed or opened slowly
- Contacts are knife type and do not 'Blow' apart on short circuit
- Incoming connection can be made to either side of switch. All switches provide isolating distance contact breaks on either side of fuse link

A guide to specifying and ordering your HUBBELL Fuseswitch

Step 1 - Basic Switch	Switch Type	kW Column	Technical Section	Order References
Determine switch required from kW column or refer to technical section. BS & NH/NFC switches are supplied with standard shafts - refer to page 6 for longer shafts. For USA switch shaft - refer to page 37	BS Switches	Page 2	Page 14 - 15	Page 3
	BS Switches for Reclosure Preventor	Page 2	Page 14 - 15	Page 12
	BS Switches for atmospheres containing Sulphur	-	Page 13	Page 13
	NH/NFC Switches	Page 26	Page 29	Page 27
	USA Switch	-	Page 36	Page 36
Step 2 - Handles Determine type of handle required from functions table page 4	BS Switches			Ordering Guide - Page 5/6
	NH/NFC Switches			Ordering Guide - Page 6/28
	USA Switch			Ordering Guide - Page 38
